(54) Title: SYSTEM AND METHOD FOR CLEANING A GRINDING MACHINE

(57) Abstract: A grinding machine cleaning system and method provides a range of human safe products that can easily be introduced into the grinding chamber and cycled through the equipment. Some of the products include corn cobs, walnut shells, pecan shells, nuts, rice, dried corn kernels, corn meal, barley, wheat, bulgur, and other grain, fiber, legume, nut, bark, and shell products in varying shapes and sizes. Organic products have largely been considered ideal. However, inorganic materials also may be used with equal effect.
